

Mimi Moto Compact Lantern

To have light in Off Grid areas Mimi Moto offers the Compact Lantern. The Lantern has 3 adjustable light settings for every task. With the metal stand the light can be aimed at different positions and also hung upon wall or ceiling.

The fan of the Mimi Moto stove can directly be powered via the lanterns 5V USB output. Phones and other USB powered devices can be charged as well.

For charging the Lantern, Mimi Moto's 6W solar panel or the USB adapter can be used.
